

Icon Time Systems® PROX+ Employee Time Clock Package

A simple wave of the badge within inches of the unit, clocks your employees IN or OUT – without even removing the badge from the wallet or purse.

The PROX+ Entry Employee Time Clock:

- Supports 100 employees (expandable)
- Uses the latest Proximity technology
- Allows PIN entry at the clock if badge is lost

How easy is it?

SETUP

Attach the mounting bracket to the wall and lock the time clock into place with the key. Connect the 50-foot cable to a PC that's running TimeSource® software (included) and setup is easier than ever.

- Unlike other badge systems, Icon Time Systems' Intelligent Storage™ lets a manager handle lost badges right at the clock.
- Employees feel more satisfied when they can SEE information being accurately recorded.
- With the time spent manually calculating timecards—not to mention human error—our clocks will pay for themselves in a matter of months.
- PROX+ helps eliminate "buddy punching" which accounts for up to 5% of the gross payroll. *The American Payroll Association
- All Icon Time Systems Time Clocks are upgradeable.

CLOCK IN OR OUT

The system reads badges through most wallets or purses, so employees just wave the Proximity badge within a few inches of the clock. That's it. Employees can view their last punch directly at the clock.

MANAGE

TimeVue® software does the calculating for you: regular hours, two levels of overtime, and an unlimited number of other hour categories such as sick, vacation and holidays. Track tips earned or job numbers, change departments, or edit punches at the clock or at the PC.

EXPAND

Need more clocks? Add them using your choice of serial (direct to PC connection), modem, or Ethernet communications. Also, customize your software and increase capacity with additional modules, and add multi-user licenses to share data with any computer on your network.

Employee Capacity

- 100 employees
- Software – Can be upgraded to unlimited capacity at additional charge
- Clock – 200 employees per clock

Note: Please contact Icon Time Systems for upgrades larger than 200 employees

Communication Options

- RS-232 Data Cable
- Modem
- Ethernet

Add-on Modules

- Job costing
- Auto Poll
- Sick, holiday and vacation accrual
- Access control and many more

Benefits are key.

THE PROX+ ENTRY EMPLOYEE TIME CLOCK PACKAGE:

- Tracks regular time and two levels of overtime
- Lets managers edit timecards and check attendance at the time clock
- Lets you view/print timecard, Who's IN/OUT, Missed Entry, Total wage reports, and more
- Exports timekeeping data directly to QuickBooks, ADP®, Paychex®, ASCII, Microsoft® Excel® and many other payroll export programs (upgrade fee may apply)
- Sustains all pay period types (one pay period)
- Up to 99 different departments in total for the system, maximum of 18 per employee
- Accepts tips, job numbers, and department changes at the clock
- Archives data and stores employee records for unlimited time
- Supports multiple clocks
- Enables multi-user support that shares data across multiple PCs (additional upgrade required)
- Includes free 30-day technical support

WHAT'S IN THE BOX?

- PROX+ Employee Time Clock
- TimeVue® Lite Time & Attendance Software for 100 employees
- 25 Proximity badges
- 50-foot communications cable
- AC power adapter
- Printed, fully illustrated Users Guide
- Wall-mounting bracket
- Two mounting keys
- Free 30-day technical support
- One-year parts and labor warranty

Intelligent Storage™ protects valuable employee data.

Intelligent Storage is a fail-safe method that allows you to record and access employee information whenever you need it.

INTELLIGENT STORAGE:

- Greets employees with name when signing IN or OUT
- Provides on-screen guidance for transactions
- Allows employees to change departments and add tips or job numbers
- Allows employees to check last punch right at the clock
- Reduces training time with on-screen instructions
- Increases employee satisfaction: They can see that information is being accurately recorded

Call our Sales Department at 1-800-847-2232, and press option 3 for packaging details. We'll help you build/create a clock that answers your business needs.
