

- Improve employee efficiency by replacing all manual time and attendance calculations
- Eliminate holiday, vacation errors and all other payroll errors
- Lower overall employee tardiness

Icon Time Systems® SB-100 Employee Time Clock Package

Just plug in the SB-100™ Employee Time Clock and go. Designed to automate time collection without extensive setup or training, it takes just five minutes to begin automatically calculating standard hours, overtime hours and gross wages—with or without a PC.

The SB-100 Employee Time Clock:

- Supports 50 employees
- Track regular time, overtime and gross wages
- Allows you to edit punches, check attendance, and view hours at the clock
- Lets you view/print timecard, Who's In/out, Missed Punches, Detail wage reports and more
- Allows employees to view last punch and hours worked directly at the clock
- Support all pay period types
- Free 30-day technical support

How easy is it?

SETUP

Lock wall-mounting bracket to the wall, plug in the power adapter and you're ready to go!

CLOCK IN OR OUT

Your employees will start using the clock immediately after you issue a pre-assigned ID number: no badges to forget, lose, or wear out.

EASY TO MANAGE

Automatically calculates and sends regular hours, overtime hours, and gross wages directly to your printer or PC to print reports. Access useful reports such as Time Worked, Attendance Sheets, and Labor Totals any time!
