

**TotalPass® P600**

# A More Powerful Payroll Assistant

Driven by TotalPass Technology

**ICONTIME**  
A PAYCHEX company

# Introducing the TotalPass® P600

This is Time Management. Redefined.

The TotalPass P600 will transform the way you work. Our most powerful Proximity time clock is driven by IconTime's proprietary TotalPass technology. Designed for mobile and on-site time tracking, the TotalPass P600 will streamline your payroll process — capturing digitally accurate time, valuable labor data, and helping supervisors manage teams with real-time alerts.

## Our Most Powerful Proximity Time Clock for Business up to 500 Employees

**Easy.** Hassle-free Setup. No Software to Install.

We designed the TotalPass P600 to work right out of the box. With no software to install, you'll be guided through a simple setup for the clock and can start entering employees.

Managing employees and creating reports is also a breeze thanks to the powerful TotalPass software built into the clock and accessible from any device via an internet browser.

**Efficient.** Turbo-charge your productivity with perfect accuracy.

With so many advanced features included with the TotalPass P600, you'll realize big productivity gains — from day-to-day time and attendance management to payroll processing.

Employee punch data is captured down to the minute – no more wasted hours spent tracking down timecards, missed punches, or deciphering illegible entries.

You'll also capture valuable labor data — eliminating the high cost of storing paper records and turning those employee punches into actionable insights with easy-to-generate labor reports.

**Flexible.** Built for Mobility.

The TotalPass P600 gives you the freedom to work where and how you want – remote workers can easily clock in using Web Punch from a Mac, PC, smart phone or tablet.

For onsite teams, clocking in is seamless and secure by entering a Personal Identification Number (PIN) or swiping an RFID Proximity Card.

Managers will appreciate seeing attendance in real-time, getting proactive email alerts for missing or late punches, and being able to approve timesheets from any device with a web browser.

### Export Hours Directly to Payroll

This is where you'll see the real power of automated time and attendance. Employee hours are seamlessly moved into your payroll system — eliminating manual data entry, ensuring accuracy and saving you time.

The TotalPass P600 is compatible with most popular payroll systems, including:

- Paychex Flex® & Preview
- QuickBooks Online®
- QuickBooks Desktop (Pro®, Premier, Enterprise)
- ADP Workforce Now®
- Paylocity®
- SurePayroll®
- Paycom®
